

Connect & Track

Connect & Track is a simple and discreet self-install option for Quartix GPS vehicle tracking. Simply attach the device's two wires to your vehicle's battery, and in minutes you can access the telematics data for any journey that vehicle makes.

The Connect & Track device stays secure and out of sight whilst generating a host of insights on your fleet's activity. See everything from driver timesheets and route maps to driving style analysis on our Google-backed online tracking system.

Key benefits

- ✓ No engineer required
- ✓ Device is secured out of sight
- ✓ Easy to move between vehicles
- ✓ Simple over-the-air upgrades
- ✓ Stores 500 trip events
- ✓ Tamper alerts via email

A flexible option

It's easy to switch Connect & Track devices between vehicles yourself, making it the perfect choice for temporary contractors and businesses using leased vehicles.
